GOVERNMENT OF THE SCHOOL

The school is conducted under the following law (General Statutes of Connecticut, Revision of 1902) :

§ 2280 The state board of education shall maintain normal schools as seminaries for training teachers in the art of instructing and governing in the public schools of this state, at the places where such schools are legally established, and such sum as the state board of education may in each year deem necessary for their support, not exceeding one hundred and ten thousand dollars for the four normal schools now established, shall be annually paid therefor from the treasury of the state, on the order of said board; but the board shall not expend any money for a normal school hereafter established, until the town, city, or city school district in which said school is situated shall have agreed in writing with said board to furnish, and shall have furnished, schools, in suitable and sufficient school buildings in connection with the training department in said school, the terms of said agreement to be satisfactory to said board; and every such town, city, or city school district is hereby empowered to make and execute such agreements.

§ 2281 The number of pupils in each school shall be determined by the state board of education. Said board may make regulations governing the admission of candidates. To all pupils admitted to a normal school all its privileges, including tuition, shall be gratuitous; no persons, however, shall be entitled to these privileges until they have filed with said board a written declaration that their object in securing admission to such school is to become qualified to teach in public schools and that they intend to teach in the public schools of this state.

§ 2282 The school officers in each town shall annually, upon request, forward to said board the names of such persons as they can recommend as suitable persons in age, character, talents, and attainments, to be received as pupils in said schools.

§ 2283 The state board of education shall expend the funds provided for the support of normal schools, appoint and remove their teachers, and make rules for their management; shall file semi annually with the comptroller, to be audited by him, a statement of the receipts and expenses on account of the normal schools, and shall annually make to the governor a report of the condition of these schools and the doings of said board in connection therewith.

§ 2284 Said board may establish and maintain model schools under permanent teachers approved by it, in which the pupils of the normal schools shall have an opportunity to practice modes of instruction and discipline.

PURPOSE OF THE SCHOOL

The purpose of the normal school, as set forth in the law, is to train teachers "in the art of instructing and governing in the public schools of the state."

ADMISSION

Age — All candidates must be sixteen years of age or over at the time of admission.

Testimonials — Each applicant must bring satisfactory testimonials as to character and attainments from a teacher and also from a school visitor of the town in which the applicant resides. The proper form to be presented by high school graduates is given on page 29.

Evidence of preparation — Applicants of the prescribed age who present the required testimonials will be admitted to the school as follows

- 1 Graduates of four-year courses in Connecticut high schools who have attained an average rank of not less than 75% on a passing mark of 70% will be admitted to the normal school on the certificate of the high school principal.

N B — 75% on a passing mark of 70% equals 66.6 on a passing mark of 60%; 71.84 on a passing mark of 65%; and 79.16 on a passing mark of 75%.

- 2 Graduates of four-year courses in Connecticut high schools who have not attained the above rank may be admitted to the normal school on passing an examination to be prepared by the normal school principals acting as a board.

Candidates for admission by examination must offer ten units as follows:

1 English literature and composition	3 units
At least 7 units from the following subjects:	
2 Algebra	1 unit
3 Geometry	1 unit
4 History	1 or 2 units
5 Latin	2 or 4 units
6 French	2 or 3 units

7	German	2 or 3 units
8	Drawing	$\frac{1}{2}$ or 1 unit
9	Physics	1 unit
10	Chemistry	1 unit
11	Biology, botany or zoology	$\frac{1}{2}$ or 1 unit
12	Physical geography	$\frac{1}{2}$ or 1 unit
13	Physiology and hygiene	$\frac{1}{2}$ or 1 unit
14	Stenography	1 or 2 units
15	Domestic science or manual training	1 unit
16	Commercial geography	$\frac{1}{2}$ or 1 unit
17	Arithmetic	$\frac{1}{2}$ or 1 unit
18	Bookkeeping	1 unit

A unit represents a year's study in any subject in a secondary school, constituting approximately one-quarter of a full year's work.

Examinations will be held at each of the four normal schools on June 12-13 and on September 4-5 1917. The June examinations may also be given on the same dates at any high school in the state upon the application of the principal of the school.

- 3 Presentation of a state teacher's certificate, or
- 4 evidence of two years' successful experience in teaching.

Applicants who desire to take a course in a normal school but are unable to satisfy the requirements enumerated above may be admitted to a course not less than three years in length.

Intention to teach — The object of this school is to fit young men and young women to teach successfully in the common schools of this state. All applicants must sign a written declaration that their object in securing admission to the school is to become qualified to teach in public schools, and that they intend to teach in this state.

It is understood that none enter this school unless for this purpose. If, in the case of any pupils, the earnestness of this purpose is negatived by unfaithfulness, or if unfitness for this calling is disclosed, such pupils will not be allowed to remain in the school.

Classes — Classes are organized only in the fall. Entering in the middle of the year is unadvisable, and generally not permitted.

TRAINING SCHOOLS

The Locust avenue school with eight grades in eight rooms, the Balmforth avenue school with fourteen rooms and eight grades, two rooms with first and second grades at New street school, and the country school at Miry brook are used as training schools. Every pupil is required to observe, teach, and manage in these schools for five months.

The Miry brook school gives an opportunity to become familiar with a country school. In the training schools pupils are taught to put in practice under skilled supervision the methods and principles previously acquired in the course. No diplomas will be granted to students until they can teach and manage a school to the satisfaction of the faculty.

COURSE OF STUDY

The general course is planned for two years and may be taken in that time by those whose preparation permits. Those who are unable to do the required work in that time will remain in the school longer. The school year includes forty weeks.

The work of the school will be arranged so as to give special preparation for teaching arithmetic, language, literature, geography, elementary science and history.

Well-equipped laboratories and an excellent library are provided and make an invaluable part of the training.

The course of study is in the main professional. In the first part of the course students are thoroughly grounded in the subjects usually taught in the grades and the best methods of presenting them are discussed. The principles underlying the best methods of teaching and managing are taught, followed by the practical work in the training school.

SUMMER SCHOOL

A summer school was held at the Normal School July 30-August 24 1917. The following courses were offered

- 1 a course for normal school graduates and experienced teachers
- 2 a course for rural model school teachers
- 3 a course for those beginning to teach
- 4 a course for librarians
- 5 a conference for high school teachers
- 6 a conference for trade school teachers
- 7 a conference for state supervisors

The normal school will be in session this summer and courses similar to those given in previous years will be offered. The date and courses will be announced later.

CORRESPONDENCE COURSES

The Danbury normal school offers correspondence courses in the following subjects,—drawing duties of citizenship English language English literature geography history penmanship physics.

The satisfactory completion of these subjects will be equivalent to the first year's work in the normal school.

The completion of each subject is equivalent to passing the state examination and the preliminary papers in that subject.

All who finish this correspondence course and desire a diploma must take the last year in residence at the normal school.

GENERAL INFORMATION

EXPENSES

The advantages of the school are offered free to all who declare their intention of teaching in the common schools of the state.

Necessary text-books are provided without charge.

Comfortable rooms and good board cost from five to six dollars. They may be obtained after students arrive in Danbury. The principal will assist students in finding places.

VISITORS

Visitors are welcome in the normal school and in the training schools at any time. Teachers are especially invited.

DIPLOMAS

Diplomas are awarded to those who

- 1 have throughout the course maintained a standard of conduct befitting a teacher
- 2 have attained the required standard of scholarship in every prescribed subject
- 3 have exhibited a fair degree of skill in teaching and governing children
- 4 have passed the state examination and secured at least an elementary certificate

A candidate for the diploma who has failed to reach the required standard of efficiency in teaching or who has shown

weakness in some portion of the work of the normal school may, at the discretion of the normal school faculty, be granted a certificate. Such a student will receive the diploma of the school if, within two years following the date of leaving the normal school, she shows herself capable of teaching and governing a school successfully.

The normal school teachers are authorized to visit the schools and observe the teaching and management of graduates of their respective schools and to nominate to the state board of education as candidates for honor state certificates those who have taught successfully not less than one year and who show marked excellence, both in teaching and management.

TRAINED TEACHERS

Law

The state board of education may at all times maintain, in any of the normal schools, one student, selected on the basis of scholarship and general fitness, from each town in the state having a valuation by the board of equalization of less than one and one-half million dollars, upon the recommendation of the town school committee or board of school visitors of such town; and for students admitted to said schools under the provisions of this act, living expenses, not to exceed one hundred and fifty dollars for each pupil in any one year, shall be provided by said state board of education free of charge. Every person entering a normal school under the provisions of this act shall enter into an agreement with the state board of education to remain at the normal school for two years, unless in case of ill health or dismissal by the school authorities, and to teach in one of the towns from which such students are nominated or appointed for a period of three years after graduation unless excused by the state board of education.

Procedure — 1 All persons having high school education may be admitted without examination. The scholarship of all other persons shall be determined by examination. In considering fitness — age, successful experience in teaching, education and health may be taken into consideration. Only such persons as are prepared to enter the regular normal school course shall be maintained under the provisions of this act.

2 This board will provide living expenses not to exceed \$150 for each pupil per annum under such rules and regulations as the secretary of this board and the principals of the schools may prescribe.

3 The board will maintain students under the provisions of this act at the normal schools in Danbury and Willimantic.

The demand for trained teachers

The normal schools cannot supply the demand for trained teachers. Many towns and districts in the state employ, so far as possible, only trained teachers. The demand made for good teachers is about twice as great as the supply.

There is ample encouragement for college graduates and others of liberal education to prepare themselves for teaching by taking the professional course.

This survey shows that a normal school, with its instructors, its collection of books and apparatus, its activity in progressive teaching, its gratuitous instruction, is able to offer decided advantages to all who intend to become teachers.
